

ENCLOSURE & METAL SHEET

PRODUCTS

INDUSTIRA[®]
INDUSTRIAL MANUFACTURING

Outdoor Free Standing
IP 56, ANSENEMA 4

Indoor Free Standing
IP 30

Indoor Wall Mounting
IP 33

FEATURES

- Flexible dimension
- Single / double door
- Front / rear door
- Flexible cut out
- Cover plate (top-deck)
- Mounting plate
- Component support
- Equipped with handles and locks
- Wet painting or powder coating finish with various color options

Outdoor Free Standing
IP 56

Indoor Wall Mounting
IP 44

Outdoor Wall Mounting
IP 44

MACHINES

Shearing machine with capacity of 70 tons capable to cut sheet steel with 2,500mm length and up to 4mm thick. Incluable power press brake machine with maximum pressure of 25 tons, also provided bonding diagram for different tools upon request.

Computerized Numerical Control / CNC turret punch machine to make various shapes for all kinds of plates up to 4mm thick. Bending machines with capacity up to 100 tons to bend sheet steel with length of 3,000mm and 4mm thick equipped with auto bending facility.

MANUFACTURING PROCESS

- Production capacity: 2,400 cubic/years
- Modern manufacturing facilities
- Quality control on each sub-process
- Paint qualification tested based on ANSI and ASTM Standards.

Our factory is equipped with modern manufacturing and testing facilities. We have around 50 skilled and semi skilled workers, experienced in manufacturing various types of enclosures and metal sheet products.

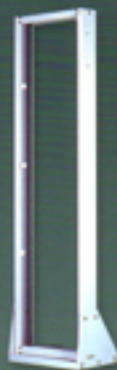

PT INDUSTRIRA

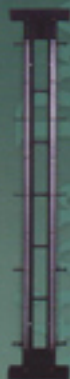

19 Inch Closed Cabinet

19 Inch - Rack Cabinet

19 Inch - Open Rack

Single Vertical Frame

FEATURES

- Flexible dimension
- Equipped with handles and locks
- Grounding system
- Acrylic or glass panel
- Accessories
- Wet painting or powder coating finish with various color options

Wall Mounted Rack

19 Inch DDF

19 Inch BMG

Feeder Clamp

PCR (Power Control Room)

- Outdoor type
- Application standard : ANSI/NEMA
- Enclosure : NEMA - 3R
- Location : Non Classified or Classified area
- Metal building integrated with electrical switchgear and control system
- Factory assembled and tested with installed equipment
- Lower site installation cost

Kiosk

- Outdoor type
- Application standard : IEC
- Degree of protection : IP 54
- Transformer Capacity : 2000kVA (max.)
- Rated Voltage : 24kV
- Frequency : 50Hz
- Finishing treat wet painting (epoxy) & powder coating (epoxy)

Cable Support System

- Contains cable ladder, cable tray and channel framing system
- Can be used singly or modified by each other
- Support electrical and telecommunication cable system installation in building or industrial plant
- Material 1,5 to 2,0mm thick
- Finishing treat powder coating, wet painting, Hot dip galvanized
